

MERAHAN PULSE

BUKIT MERAH SECONDARY SCHOOL

STARTRIGHT PROGRAMME

We welcomed the secondary ones with the StartRight Programme where students got to know their classmates, form teachers and the school through activities and tours of the school.

Prefects from the other levels led the programme and conducted ice-breakers for the secondary one students. Meanwhile, the prefects steered students in other levels in games and activities to promote bonding after the long break at the end of 2022.

IT IS THE YEAR OF THE RABBIT!

Merahans welcomed the Chinese New Year with a rousing lion dance and other performances which thrilled the audience. The concert ended on a high note with the school leaders and staff belting out Chinese New Year songs with much gusto!

SPREADING FESTIVE CNY JOY

Sec 5 Merahans armed with festive goodies and mandarin oranges headed to the Redhill Moral Seniors Activity Centre while sec 3 students did likewise with residents in the neighbourhood.

In addition to the goodies and oranges, students also gave out customised greetings they had individually created for the residents.

It was a good opportunity to bond with others in the community.

"IT TAKES A VILLAGE TO RAISE A CHILD"

The Parent Support Group (PSG) had their first soiree in February where they welcomed new members from the secondary one level. Parents shared tips on how to communicate with teenagers and also played Bingo! The support of parents is paramount in working together with the school so that our students - your children, can grow up well. Hopefully more parents will volunteer to share their expertise, services and experiences for the betterment of Merahans!

HEART X SOLE

Term 1 ended on a high with Heart x Sole - our cross country event, at the beautiful Jurong Lake Gardens! PSG members joined in the fun by manning different booths and participating in the run as well. Merahans did their best and went off to a well-deserved term 1 break!
